

LEAD Global Training Program

The [T37 LEAD Global Training Program](#) is accepting applications for a 1 to 2 year postdoctoral position. LEAD supports trainees from underrepresented groups committed to conducting health disparities research, with a specific focus on global mental health prevention, intervention, services, and implementation research within resource-constrained settings. Eligible candidates should be a U.S. citizen, non-citizen national, or permanent resident, and be from a [disadvantaged](#) or [underrepresented population](#) in biomedical, behavioral, clinical & social science research as outlined by the NIH.

The postdoctoral trainee will be in-residence at Washington University in St. Louis. The postdoc trainee will engage in writing publications using study data and proposal development to explore new opportunities related to HIV/AIDS or global mental health disparities. The postdoctoral position also includes participation in the LEAD summer training program at Washington University and will have the opportunity to travel and engage in mentored research at a Sub-Saharan Africa study site. Research will be conducted remotely in 2020 and until COVID-related travel restrictions are no longer in effect, after which travel to the study site will be arranged.

Applications will be accepted on a rolling basis and can be completed on the [T37 LEAD Global Training Program](#) website. For more information, contact Laura Peer at lpeer@wustl.edu.
