

Becker Library Researcher Workshop Series: Spring 2018

The following workshops are intended for investigators or support staff. Each session has a limit of 30 registrants; registration is highly encouraged.

NIH Biosketch and NCBI SciENcv - [Registration Link](#)

Thursday March 1, 2018

12:15 to 1:00 p.m.

Farrell Learning and Teaching Center: Room 213

Are you preparing a grant application for NIH? Do you want to learn more about SciENcv? This session will review the instructions for creating a biosketch in the NIH format and include a review of NCBI SciENcv, a tool to generate a biosketch.

NIH and Other Public Access Policies - [Registration Link](#)

Thursday March 15, 2018

12:15 - 1:00 p.m.

Farrell Learning and Teaching Center: Room 213

Are you preparing a manuscript arising from NIH-funded research? Do you have other sources of grant funding such as the American Heart Association or the Department of Defense? If so, you may be required to comply with public access policies issued by these organizations. This session will provide an overview of the NIH Public Access Policy and other public access policies including the steps involved with compliance.
