

Registration Open - Introduction to MDClone Workshops

Webinars on [MDClone](#), the new campus resource from the Institute for Informatics' Center for Population Health Informatics, are now available. MDClone is a free, secure, self-service platform for building queries and downloading computationally derived (“synthetic”) electronic medical record data from the I² [Research Data Core](#) (RDC).

Each "Introduction to MDClone" webinar will include a demonstration of creating a query to obtain synthetic data. Click the name of the session below to register (required). A Zoom link will be provided prior to the workshop to all who register.

Wednesday, March 23, 2021

12 - 1 p.m.

[Introduction to MDClone](#)

Wednesday, April 20, 2021

12 - 1 p.m.

[Introduction to MDClone](#)

All sessions will be recorded and posted to the [MDClone Videos webpage](#).

Email the I² helpdesk at i2help@wustl.edu to request access to MDClone.

For questions about the workshops, email Chris Sorensen at sorensenc@wustl.edu.
