

## RDO Agency Funding Information Session - Burroughs Wellcome Fund: Career Awards at the Scientific Interface Program

The Research Development Office (RDO) is hosting an informational session for the “Burroughs Wellcome Fund: Career Awards at the Scientific Interface Program.”

Tuesday, July 27, 2021

2 - 3 p.m.

[Register in advance](#) to receive the Zoom link.

The session will include a presentation by the Burroughs Wellcome Fund staff. It is intended to help prospective applicants understand the goals of these award programs and learn how to prepare applications for the Career Awards at the Scientific Interface. Details about the program are below:

### Career Awards at the Scientific Interface

Provides \$500,000 to bridge advanced postdoctoral training and the first three years of faculty service. These awards are open to U.S. and Canadian citizens, permanent residents, and temporary residents. Candidates must hold a PhD degree in one of the fields of mathematics, physics, chemistry, computer science, statistics or engineering. This includes related areas of physical, mathematical, computational, theoretical and engineering science. Exceptions will be made only if the applicant can demonstrate significant expertise in one of these areas, evidenced by publications, undergraduate major or master's degree. You must have this exception approved by the program officer before applying; do not presume you will be given exception.

**The Preproposal Deadline is not posted yet, but it is anticipated to be close to last year's September 1 deadline.**

For more program details, please visit the [Burroughs Wellcome Fund: Career Award as the Scientific Interface website](#).  
(Note: Burroughs Wellcome Fund is no longer limited the number of applications that can be submitted by an institution, so no internal competitions will be held.)
